Walking the World

Join us on an inspiring journey through one of the most unique areas in any Disney theme park—World Showcase. The World Showcase: DestiNations Discovered tour is a fascinating 5-hour walking excursion through 11 “countries” and 4,000 years of history, culture and food. From the streets of Paris to the Bavarian

countryside, Guests can immerse themselves in the architecture, landscapes, streetscapes, attractions, shops and restaurants of 11 themed pavilions—each staffed by actual citizens from these countries:

- Mexico
- Norway
- China
- Germany
- Italy
- United States
- Japan
- Morocco
- France
- United Kingdom
- Canada

World Showcase began as a personal passion of Walt Disney, who envisioned an Experimental Prototype Community of Tomorrow (EPCOT), a global community where visiting Guests could assimilate the sights and sounds of the world.

The DestiNations Discovered tour allows Guests to peek behind the scenes at several pavilions and get an insider's look at unique 3D replicas of some of the world's most magnificent architectural icons. The tour also includes a delicious international dining experience at The Restaurant Marrakesh
